

LUTA_Quality management

Results of the survey about the targets of LUTA, Oct/Nov 2013

Starter questions:

- What do I expect from our project?
- What should we achieve?
- What are my personal visions of the effects of our project?

Summary of answers of the participants:

1. A counterpoint to the mass media – give real information about the situation of refugees
2. Spots on the situation of these human beings who live with and amongst us
3. We started with a high challenge with lots of tasks
4. To get in good contact with learners and refugees and prepare the cooperation and the documentary will be a result which can change something in the public opinion
5. Some of the difficulties of the countries and refugees will become less and they will be closer to society
6. In each country we are listening to news about numbers – see them as human beings and face to face people
7. We learn something from each other, manage to achieve a representative documentary
8. Stories of refugees, use them on festivals
9. In our schools of learners we can use this film and the work with it between the different groups
10. For me personally – I want to learn about other countries
11. Achieve a role for awareness within the EU society to show them that refugees are living with them so that they open their eyes and come closer to each other
12. I am a teacher and I am hoping for a solid and tangible piece of teaching material
13. Teaching material and common European views
14. Learn about other countries
15. I have been working with refugees I want to learn what other countries do find best practice
16. I would like to have more answers about the conditions of refugees in the different countries
17. I believe in European cooperation, it is not always effective with a lot of partners. It can be a melting pot for achieving goals and I hope we can establish a long term and sustainable cooperation
18. My expectations – I have a clear vision – I hope the projects might go one step further and they can move the issue a step forward
19. Trust is the title of our project. It should start in our group. My personal – naive - vision is – that our panels with press and decision makers should change them completely.
20. Sweden is differently handling the situation and I want more information from other countries and material for the school, which I can use as a multiplier and I also agree with all the other statements...
21. I am sorry that I do not speak English – it is my first experience in an Europea project. I see the difference regarding working and other conditions.
22. The project should make a difference on the daily life basis and on the level of human rights
23. We see we have a lot to learn and my vision is that we will manage
24. I am looking forward to the documentary material and to use it.
25. I am happy to learn about the different life conditions.
26. I hope that our documentary will be used in schools and other education institutions and will change the opinion on refugees.
27. It would be great if it could improve the understanding of the situation of refugees on a European level. In a way that we understand that their situation concerns all countries in Europa – in a different way but with common responsibility
28. It might hopefully bring more awareness in our country ... In all countries
